

BIOGRAPHY

Daytripper is a Phoenix, AZ–based doom metal band known for theatrical live performances and a steadily growing national draw. Their debut album, Book I: The Trip and follow-up EP The Alchemist, received critical acclaim, including a #27 ranking (March 2024) and #21 (October 2025), on the Doom Charts, establishing the band as a rising presence in the doom metal underground.

The latest release, The Alchemist, expands Daytripper's doom palette while deepening the mythology introduced in Book I. The EP blends psychedelic locrian riffs, synthesizers, and nod-inducing sludge.
